

## Our new range of secure door systems

High quality external  
door systems designed  
and made in the UK

◆  
**Bringing you  
peace of mind  
with the most  
secure doors**

**An innovative door system designed and produced in the UK by Smart. With a secure locking mechanism and unbeatable strength.**

Each door can be tailored to meet your own specific requirements – from fixed side and/or head light and double door options, to stainless steel and bright chrome finishes. Our team can help you with any questions and to select the most suitable product for your home.

## Performance

Every door is manufactured by our specialist Smart fabrication team, so whatever the weather, you can be certain that your door has been engineered to last.

- Fully adjustable lock keep.
- Low threshold.
- Integrated weather bar.
- 3 adjustable hinges.
- 66mm triple glazed and laminated glass units.
- All profiles include a polyamide thermal barrier that enhances thermal performance.
- Thermally efficient - with a 'U' value from 0.9 W/m<sup>2</sup>K to 1.1W/m<sup>2</sup>K, dependant on the glass specified.
- Double-rebated EPDM centre gaskets provide maximum weather protection.

## Security

With your safety and peace of mind our priority, we only use the highest quality fittings to ensure the maximum security of your home.

- 'Block door' construction incorporates a totally hidden sash and fixing system.
- Door sashes sit flush internally and externally with the outer frame.
- Lock body is encased and protected by the hidden door sash and external aluminium skin, creating an additional 5mm aluminium external wall.
- Door sashes don't require glazing beads – providing maximum protection against ramming.
- High security 10-point lock and escutcheon plate system with drill proof 'anti-bump' cylinder all fitted as standard.
- Additional options include fingerprint and key pad entry systems.
